Our Mission

We support the women’s health of all generations and the bringing up of next healthy generations. To achieve our mission, we have clinical specialists for all area, perinatology, gynecological oncology, reproduction and health care, who also develop the basic and translational novel research of their own area.

Main research areas of our department

Perinatology
Gestational diabetes, Hypertensive disorder of pregnancy, Fetal growth restriction, Developmental origin of health and disease, Prenatal diagnosis, Ultrasonography

Reproduction
Recurrent Pregnancy Loss, Endometriosis/Adenomyosis, Polycystic ovary syndrome, Oncofertility

Gynecological oncology
Genetic analysis of gynecological cancers, Ultrasonography for gynecologic malignancies, QOL in survivors of gynecologic cancers
