Okayama University Graduate School of Medicine, Dentistry,
and Pharmaceutical Sciences

Anesthesiology Intensive care Pain management

~From bedside to bench~

Research Interests

Since being established in 1965, our development has been provided superb education for many anesthesiologists as well as excellent anesthesia care. Our field has expanded from operating room to intensive care unit and pain clinic.

Our basic research interests include;

1. Basic research on acute organ failure
2. Resuscitation of ischemic brain damage
3. Molecular mechanism of chronic pain

Research Fields of Anesthesiologists

We also study clinical data obtained from thousands of our anesthesia, ICU and pain clinic patients.

Clinical research;

Complications after major surgeries in ICU

Novel biomarkers in ICU patients, etc...
